Dear Matt,

In March 2008, JMS Restaurant Corporation began to use trash compactors supplied by Global Trash Solutions. We have realized, apart from equipment cost, real savings of approximately \$300 - \$500 per month per store. We have also saved additional monies of approximately \$75 per month for the disposal of cardboard.

I highly recommend Global Trash Solutions as my preferred trash service for my six Burger King restaurants.

The staff has been attentive and highly energized to make this program a success.

Please feel free to contact me at any time with any questions that you might have.

Sincerely,
