Dear Global Trash Solutions, LLC,

I would like to thank you for the opportunity to do business with you and your company. I'm extremely satisfied with the acquisition of your trash compactors for my 2 McDonald's restaurants. You and your company have been great throughout the whole process. I know it took some time for me to pull the trigger on the transaction, with this economy; you don't want to spend anymore than you have to. But, when I received your case study and verified it with my trash hauling company, a light came on in my thick head....Not only would the savings pay for the lease...I would get to keep cash in my pocket. I just received the first statement from the trash hauling company and I will be saving \$250 per month after making the lease payment. This is what you would consider a no brainer. When the lease terminates it is even a better deal. Since trash-hauling prices continue to escalate, this is something I needed to do to control costs.

I was able to reduce from a six yard dumpster to a three yarder. I'm also in the process of evaluating the situation to try to reduce the number of pick-ups from three per week to two, thus increasing the savings.

I would highly recommend you and your company, to anyone that is interested. If anyone would like to call me, feel free to give him or her my number.

Respectfully,

Jose Montes
